ATIS (http://as-atis.ru/)
November 2005 – December 2006
St.-Petersburg

 - KZP IZ

Software for control and monitoring of railway equipment with the help of the serial port interface.

Participation in:
- Development of the application structure and algorithms
- Code writing in Microsoft Visual Studio .Net 2003, C#/C++
- WinForms, Unit testing, ADO.NET
- Technical writing

- SmartMon

Software for diagnosis, measurement, display and registration of signals using Bluetooth-connection.

Participation in:
- Development of the application structure and algorithms
- Code writing
  - Measurement set (8-bit microcontroller ATMega 8515). The program was written in C
  - Transmission set (Bluetooth master adapter, BlueGiga WTOR). Programming the serial profile via AT commands
  - Display set (Smart phone/PDA/PC with support of Bluetooth). The program was written in C#

C/C++/Embedding Developer
ATC-Convers (http://www.atsconvers.ru/)
2004 - 2005
St.-Petersburg

- WebTel

Software for remote monitoring and control of uninterruptible power supply and WEB-based invertors.

Participation in:
- Problem definition and development of the application structure and algorithms
- Code writing in Borland C++ 3.1, Watcom 11, size optimization of program parts in assembler, development of the interface part on basis of WEB technologies (HTML/ JavaScript)
- Debugging, maintenance
- Terchnical writing

- WebTel TFTP updater

Software for loading updates of a program via a TFTP application-level protocol.

Participation in:

- Development of the application structure and algorithms
- Code writing in MVC 6.0 API
- Debugging, maintenance
- Technical writing

Additional Skills

- Computer

Libraries:

- MFC/STL libraries
- WIN32 API
- Socket programming
- Multithreaded application
- .NET 1.1/2.0/3.5/4.0
- DevExpress WinForms, Telerik Silverlight, Infragistics WinForms

Technologies:

- Bluetooth
- WEB (HTML, JavaScript, PHP, XML\XSLT, Drupal)
- WinForms, WCF, WF, EF, Web services, ADO, Unit testing, LINQ, Serialization, Reflection, XML processing, Generics
- UML Basics
- MSSQL 2000/2005, MySQL 5.x
- SSL
- WiX toolset 3.5

Version control systems:

- SVN, TFS, StarTeam

Operation Systems:

- Windows 2000, XP, Vista, W7
- Windows CE 2003, Mobile 5.0
- FreeBSD 5.2, Linux (Slackware, Red Hat), kernel 2.4, 2.6

Languages:

Russian (native)

English (fluent)
